Supplementary Table S2

Supplementary Table S2 List of GO terms enriched among the predicted target genes of *miR-634*

GO term	p-value
Negative regulation of cysteine-type endopeptidase activity involved in apoptotic process	0.0018
Mitochondrial fission	0.0032
Mitochondrion organization	0.0124
Negative regulation of extrinsic apoptotic signaling pathway	0.0138
Protein targeting to lysosome	0.0254
