

Supplemental Figure 8

A

B

SI figure 8. (A) CO-1686 resistant clones COR 1-1 and COR 10-1 develop spindle-like morphology as compared to the parental NCI-H1975 cells (5x magnification). (B) EGFR expression as determined by qRT-PCR in NCI-H1975, COR1-1 and COR10-1 clones following siRNA knock-down 72-hours post-transfection.
