Supplementary Figure 10 : IL-17 directly stabilizes B7-H4 mRNA. (A) Expression of *Vtcn1* measured by qPCR on KPC cells treated with IL-17 or IL-6 for 6 days. (B) *Vtcn1* expression by qPCR in KPC cells treated with Bay 11-7082 with or without IL-17 treatment. (C) *Vtcn1* expression by qPCR in KPC cells treated with U0126 with or without IL-17 treatment. (D) *Vtcn1* expression by qPCR in KPC cells treated with Actinomycin D with and without IL-17 treatment.
