Table S2: Cross-tab to evaluate correlations between CTTN protein expression and gene amplification in 82 laryngeal dysplasias

<i>CTTN</i> gene amplification (%)	CTTN protein expression (%)			No of cases
	Weak	Moderate	Strong	
Negative	41 (57)	16 (22)	15 (21)	72
Positive			10 (100)	10

Table S3: Cross-tab to evaluate correlations between FAK protein expression and gene amplification in 82 laryngeal dysplasias

<i>FAK</i> gene amplification (%)	FAK protein expression (%)			No of cases
	Weak	Moderate	Strong	
Negative	35 (62)	9 (16)	12 (21)	56
Positive	7 (27)	7 (27)	12 (46)	26
