

Appendix A5 : expression of chemokine receptors on CD3+ TILs

Expression of chemokine receptors by flow cytometry on TILs recovered from fresh tumor samples.

A: Expression of all chemokine receptors (except scavenger receptors) on CD3+ TILs (n=29 tumor samples) . B: Expression of all chemokine receptors significantly expressed (>5% of CD3+ TILs) on

CD3+CD4⁺ and CD3+CD8⁺ TILs (n=5 to 15 tumor samples, except for CCR10, n=3 tumor samples).
