

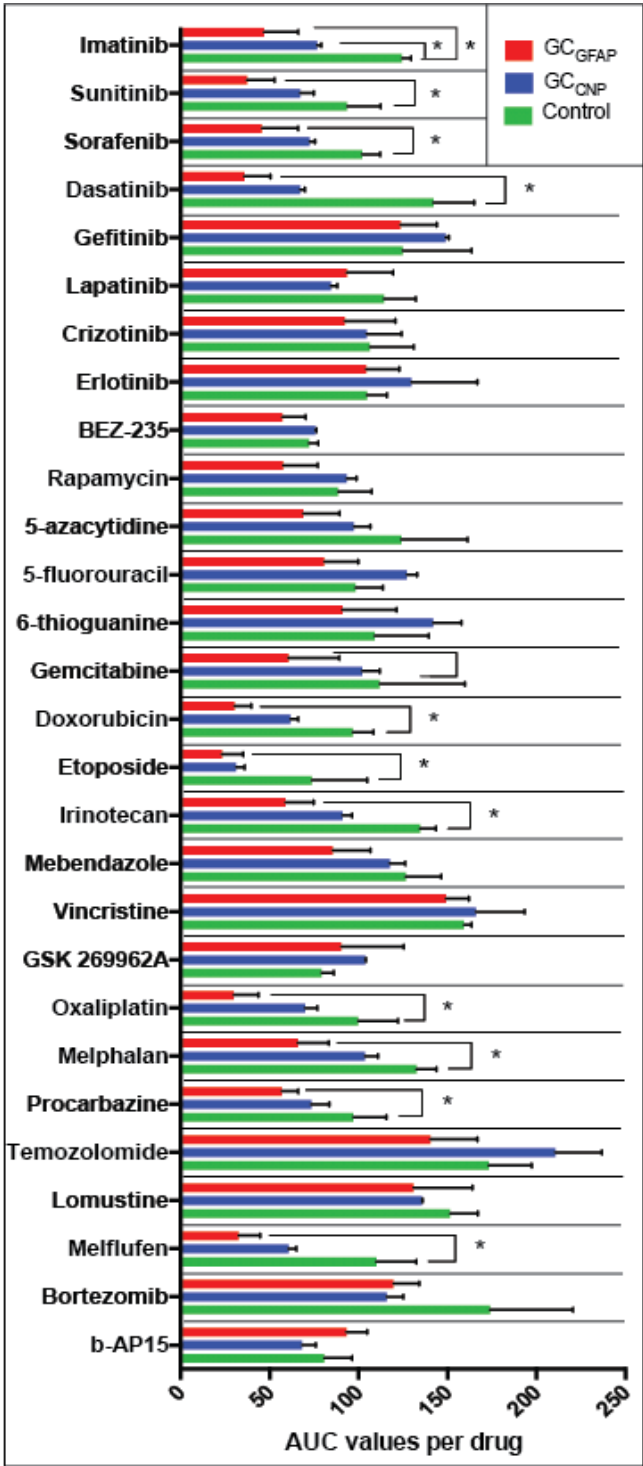

**Figure S5**

**Figure S5, related to Figure 5. Comparisons of drug response between GCs and control cells.** Bar graphs of median AUC values ( $\pm$  SD) from three GC<sub>GFAP</sub>, one GC<sub>CNP</sub> and two control cell cultures (one CC<sub>G/tv-a</sub> and one CC<sub>C/tv-a</sub>). Student's t-test was used to identify significant differences in cell viability between GC<sub>GFAP</sub> or GC<sub>CNP</sub> and Control cells, indicated with an \*,  $p < 0.05$ .
