

AAV9.2.10AmAb + PK136

AAV9.2.10AmAb + PBS

**Supplemental Figure 7. AAV9.trastuzumab tumor prophylaxis in the setting of continuous NK cell depletion.** *In situ* hybridization for *Ncr1* (*NKp46*) RNA (red) in formalin-fixed paraffin-embedded tumors harvested at necropsy from the experiment in Fig. 5C. These images are larger versions of the tumors from the negative control groups which received AAV9.2.10AmAb.
