

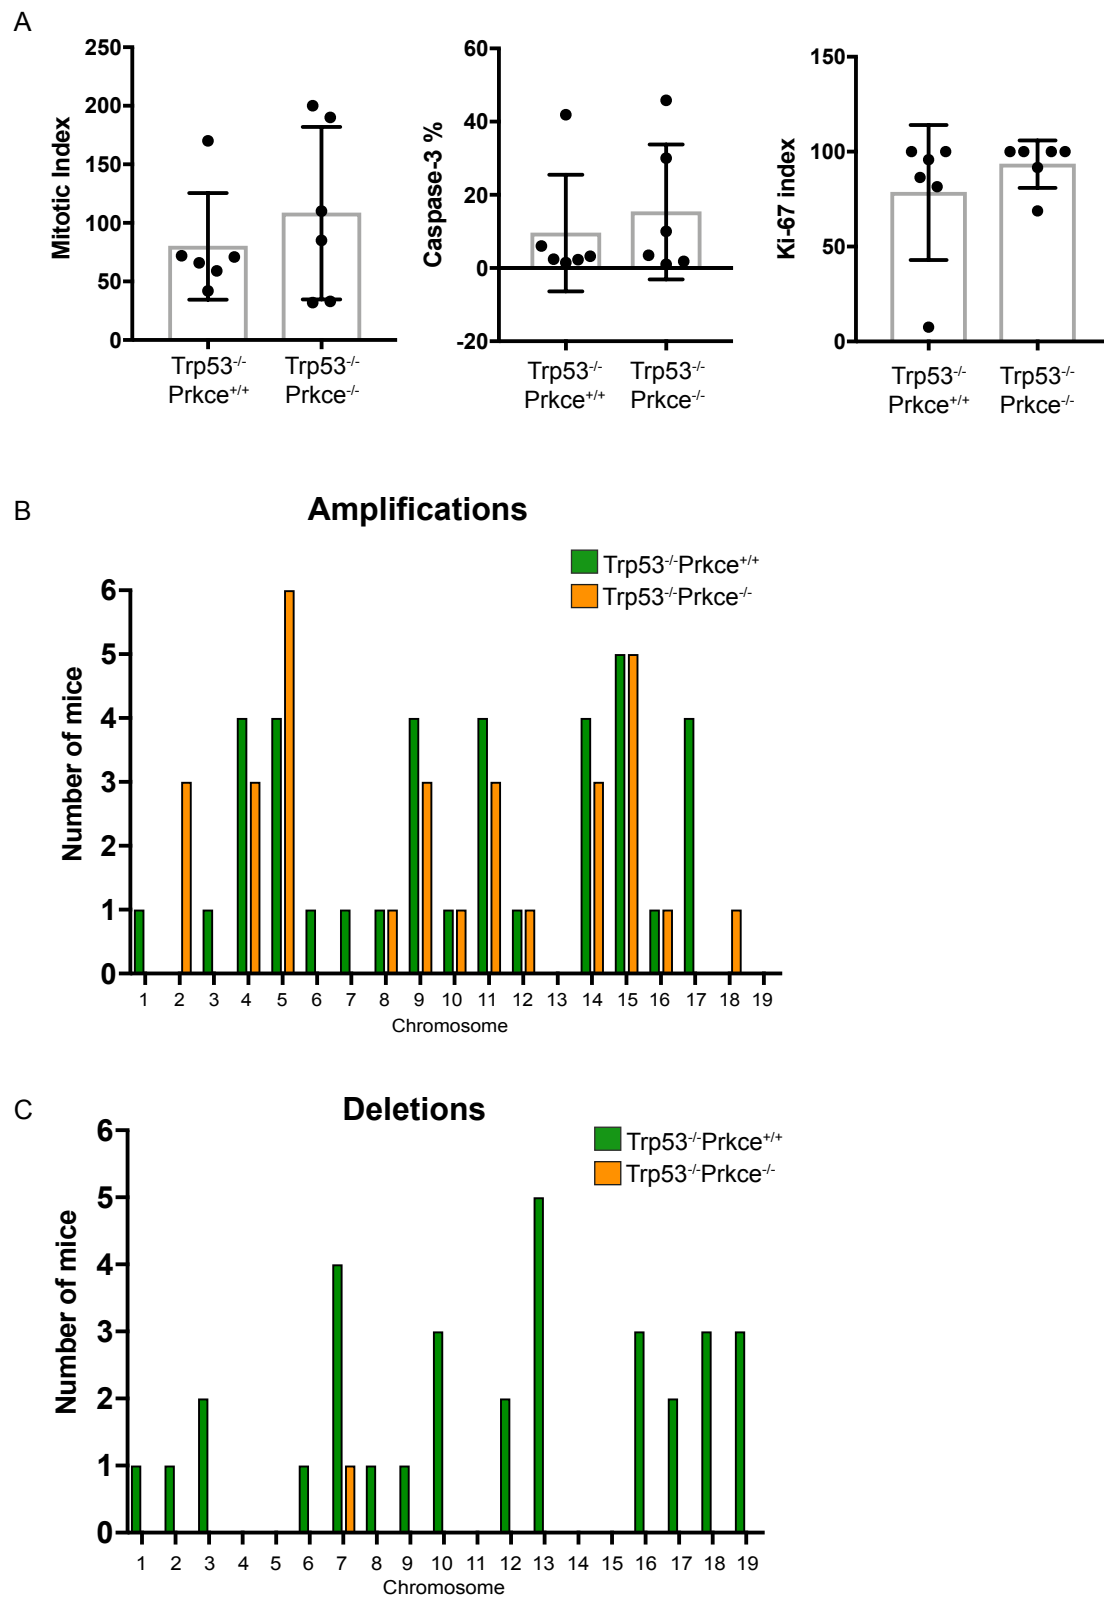

Figure S6

A) Graphs showing the quantification of mitotic cells (mitotic index), % of caspase-3 positive cells and quantification of Ki-67-positive cells (Ki-67 index) from the thymic tumours isolated from the *Trp53^{-/-} Prkce^{+/+}* and *Trp53^{-/-} Prkce^{-/-}* mice. B,C) Graphs show the number of *Trp53^{-/-}*

Prkce^{+/+} (green) or Trp53^{-/-}Prkce^{-/-} (orange) mice showing chromosome amplification (B) or deletion (C).
