NOTICE TO AUTHORS

Before preparing manuscripts for submission to CANCER RESEARCH, authors are urged by the Editor to consult the detailed INSTRUCTIONS TO AUTHORS which are given in the January and July 1973 issues of the Journal. Copies of these instructions are available from the Editorial Office upon request.

Kids take growing up for granted.

And they should. To guard their right to grow up happy and healthy, scientists are constantly searching for the cause and cure of leukemia—the cancer that strikes down more than 2,000 children every year. In this unceasing quest, there is constant progress. And constant hope. New drugs, new therapy, new discoveries are now prolonging the lives of leukemia victims,

relieving their pain...and bringing the day of victory closer every moment. The fight against cancer demands exhaustive research. And research demands money. The American Cancer Society spent over \$2,000,000 last year just on research related to leukemia. Your help gives hope of victory. Send your check today to **CANCER**, c/o Postmaster.
