

A N N O U N C I N G

BRISTOL-MYERS COMPANY

CANCER RESEARCH
FELLOWSHIPS

The Bristol-Myers Company will award five postgraduate cancer research fellowships for programs beginning in July 1988. The fellowships are designed to support excellence among investigators who have expressed interest in clinical medicine and who also want to undertake advanced study in basic research. Five fellowships, each for a period of three years, will be announced in early 1988. Awards will be made to individual fellows and their sponsors and are not transferable under any circumstances.

Fellows will be expected to devote their entire fellowship period solely to research activity at the basic and/or clinical levels. During their fellowships period, they will work closely with their sponsors. It is anticipated that by the conclusion of the fellowship period, fellows will be able to begin independent research programs applying basic science to the solution of clinical problems.

AMOUNT OF FELLOWSHIP:

\$40,000 per year for three years,
beginning July 1988

DEADLINE FOR APPLICATIONS:

November 16, 1987

S E L E C T I O N C O M M I T T E E

Daniel E. Bergsagel, M.D., D.Phil.
Ontario Cancer Institute/
Princess Margaret Hospital

John R. Durant, M.D.
Fox Chase Cancer Center

Emil Frei, III, M.D.
Harvard Medical School/
Dana-Farber Cancer Center

George Klein, M.D.
The Karolinska Institute

Joshua Lederberg, Ph.D.
The Rockefeller University

Albert H. Owens, Jr., M.D.
The Johns Hopkins University
School of Medicine

Henry C. Pitot, M.D., Ph.D.
McArdle Laboratory for Cancer
Research

Phillip A. Sharp, Ph.D.
Massachusetts Institute of
Technology Cancer Research
Center

Richard J. Steckel, M.D.
Jonsson Comprehensive Cancer
Center, UCLA

Haruo Sugano, M.D.
Japanese Foundation for
Cancer Research

E. Donnall Thomas, M.D.
Fred Hutchinson Cancer
Research Center

James D. Watson, Ph.D.
Cold Spring Harbor Laboratory

Rules and official application forms are available from: Secretary, Bristol-Myers Cancer Research Fellowships, 345 Park Avenue, Room 43-38, New York, NY 10154; Telephone (212) 546-4337.

Our Reagents Star in WESTERNS...

...and SOUTHERNS, too. If you're looking for rave reviews of your Western or Southern transfers, try the VECTASTAIN® ABC or VECTASTAIN® ABC-AP systems. Whether you choose the classic peroxidase or the newer, more sensitive, alkaline phosphatase-based VECTASTAIN® ABC reagents, you'll be pleased with the performance of these biotin/avidin-based preformed enzyme complexes. We also offer substrate kits for alkaline phosphatase and detailed protocols describing the staining procedures. For more information on all the detection systems in our range, just phone or write us. You'll be rewarded for your time.

"YES, THERE IS LIFE AFTER BREAST CANCER. AND THAT'S THE WHOLE POINT."

—Ann Jillian

A lot of women are so afraid of breast cancer they don't want to hear about it.

And that's what frightens me.

Because those women won't practice breast self-examination regularly.

Those women, particularly those over 35, won't ask their doctor about a mammogram.

Yet that's what's required for breast cancer to be detected early. When the cure rate is 90%. And when there's a good chance it won't involve the loss of a breast.

But no matter what it involves, take it from someone who's been through it all.

Life is just too wonderful to give up on. And, as I found out, you don't have to give up on any of it. Not work, not play, not even romance.

Oh, there is one thing, though.

You do have to give up being afraid to take care of yourself.

AMERICAN CANCER SOCIETY®
Get a checkup. Life is worth it.

FOR GENERATIONS CANCER PLAGUED THIS FAMILY. THEN WE CAME INTO THE PICTURE.

It's a tragic coincidence that cancer has taken so many members of this family over the years.

It took Frank Domato in 1961. Patricia O'Hara Brown in 1974. And Serafino Gentile in 1982.

But the fact that the chain of tragedies has now been broken is no coincidence at all.

Over the last 40 years, research programs supported by the American Cancer Society have made increasing progress in the treatment, detection and prevention of cancer.

In 1985 alone, the Society funded over 700 projects conducted by the most distinguished scientists and research institutions in the country.

So it's no coincidence that in 1986, cancer did *not* take Debra Gentile—Frank Domato's great-granddaughter. Just as it didn't take hundreds of thousands of others who have been successfully treated for the disease.

You see, we are winning.

But we need you to help keep it that way.

 **AMERICAN CANCER SOCIETY®**
Help us keep winning.

Some People Commit Child Abuse Before Their Child Is Even Born.

According to the surgeon general, smoking by a pregnant woman may result in a child's premature birth, low birth weight and fetal injury. If that's not child abuse, then what is?
