Our Reagents Star in **WESTERNS...**

...and SOUTHERNS, too. If you're looking for rave reviews of your Western or Southern transfers, try the VECTASTAIN® ABC or VECTASTAIN® ABC-AP systems. Whether you choose the classic peroxidase or the newer, more sensitive, alkaline phosphatase-based VECTASTAIN® ABC reagents, you'll be pleased with the performance of these biotin/avidin-based preformed enzyme complexes. We also offer substrate kits for alkaline phosphatase and detailed protocols describing the staining procedures. For more information on all the detection systems in our range, just phone or write us. You'll be rewarded for your time.
