## **NEW!** **MOUNTING MEDIUM FOR FLUORESCENCE**

**VECTASHIELD™** mounting medium is a unique, new, stable formula for preserving fluorescence.

- Prevents rapid loss of fluorescence during microscopic examination
- Retards photobleaching in stored sections
- Retains its anti-fading ability during long-term storage
- Inhibits photobleaching of Fluorescein, Texas Red, Rhodamine, and AMCA™
- Optically clear
- Non-Fluorescing

**VECTASHIELD™** mounting medium is supplied in 10 ml bottles with a dropper dispenser for convenience and to prevent air bubbles in the applied solution.

**VECTASHIELD™** mounting medium is superior to buffered glycerol, polyvinyl alcohol-based mounting solutions, or those containing commonly used anti-fading agents.

# "Elicits a single response"

Specifically, growth. Specific to T-cells. With no non-specific stimulation. Every lot of our human recombinant IL-2 is tested with inhibitory antibodies and LAL ELISA to assure minimal levels of endotoxin and no contaminating mitogens. That assures consistent, reliable results. Experiment to experiment.

Add to that the reliability of CTLL-2 function testing and the economy of low working concentrations, and you've got an IL-2 that's eliciting a response all its own from researchers like you: an insistence on Boehringer Mannheim.

Call now for more information. On our complete line of IL-2 products. And on the IL-2 preparation that's specifically suited to your needs.

**TUMOR BIOLOGIST/  
RADIOBIOLOGIST**

Applications are invited for a staff appointment in the Division of Therapeutic Radiology and Oncology, University of Virginia Health Sciences Center, Charlottesville, Virginia. Applicants should have a Ph.D. or equivalent degree with some experience in molecular biology of DNA repair mechanisms. A successful application would be expected to initiate his/her own research program that would lead to extramural grant support. The teaching of a radiobiology course to radiation oncology housestaff is required. Individuals qualified for faculty appointments may elect to supervise graduate students or post-doctoral fellows. Academic rank and salary are negotiable and commensurate with the candidates qualifications and experience.

A curriculum vitae and the names of three references should be sent to Dr. William C. Constable, Director, Division of Therapeutic Radiology and Oncology, University of Virginia Health Sciences Center, Box 383, Charlottesville, Virginia 22908.

The University of Virginia is an Equal Opportunity/  
Affirmative Action Employer.

**Subscribe to Cancer Research**—the leading citation source of original studies in cancer research and cancer-related biomedical science. Issued semimonthly, *Cancer Research* publishes 7,000 pages of important research each year, including the following regular features:

- **The most up-to-date articles** in basic research and clinical and epidemiological investigations by authors from the United States and more than 20 countries
- **Perspectives in Cancer Research**, in which leading investigators explore contemporary and at times controversial topics
- **Advances in Brief**, a rapid communication category for short but definitive, highly significant reports
- **Supplemental Issues** developed from symposia on relevant subjects
- **Proceedings of the American Association for Cancer Research**, a special annual issue that offers stimulating new research ideas in abstract form
