

# VECTOR

**— Newly Developed —  
PEROXIDASE  
SUBSTRATES**

**Vector® VIP** (Purple) Cat. No. SK-4600  
**Vector® SG** (Blue-gray) Cat. No. SK-4700

These new peroxidase substrates have the following features:

- For immunohistochemistry or transfer blot applications.
- Precipitates are insoluble in alcohol and clearing agents—ideal for permanently mounting sections.
- No fading or bleaching on storage.
- No non-specific staining of red blood cells in tissue sections.
- Useful for single or multiple labeling protocols.
- Ideal for staining brain sections.
- Excellent for dark field microscopy.
- More sensitive than DAB on nylon transfer blots and at least as sensitive as DAB on nitrocellulose.
- Available in convenient dropper bottle formats producing 300 ml of working solution.

*For more information on these substrates or a complete catalog, please contact:*
