

AMERICAN ASSOCIATION FOR CANCER RESEARCH

The American Association for Cancer Research (AACR) is a professional society of over 10,000 scientists and physicians involved in cancer research. Members in the AACR enjoy

- subscriptions to the journals *Cancer Research*, *Cell Growth & Differentiation (CG&D)*, *Cancer Epidemiology, Biomarkers & Prevention*, and *Clinical Cancer Research* at reduced member rates
- early notification of and reduced registration rates at the AACR Annual Meeting and Special Conferences
- Employment Register, Directory of Members, public education activities, and many other benefits

Special programs to provide enhanced career development opportunities for minority scientists include

- **Mentorship Program**
- **Travel Awards to Scientific Meetings**

**55 MILLION
PEOPLE TOOK OUR
FREE COURSE.**

Our public education programs teach people about cancer. Last year, 55 million people learned that with early detection we can win 87% of the battle. For more information on winning, call 1-800-ACS-2345.

**AMERICAN
CANCER
SOCIETY**
**THERE'S NOTHING MIGHTIER
THAN THE SWORD.**

AMERICAN CANCER SOCIETY CLINICAL AWARDS

The American Cancer Society is proud to announce its Clinical Awards for 1996 funding: the Clinical Oncology Career Development Award (CDA) and the Cancer Control Career Development Award for Primary Care Physicians (CCCCA).

The CDA is a three-year award given to promising junior faculty who will pursue academic careers in clinical oncology. A successful application must describe in detail a supervised program that will develop the candidate's clinical expertise and his/her capacity to perform independent clinical/laboratory research. The annual stipend for the CDA is \$25,000 for the first year, and \$30,000 and \$35,000 for the second and third years, respectively.

The CCCCDA is a two-year award intended to develop academic leaders in primary care specialties emphasizing cancer control: family practice, general internal medicine, obstetrics and gynecology, and pediatrics. Through the CCCCDA, the Society seeks to support individuals in supervised programs that will develop the candidate's clinical and teaching expertise and his/her capacity to perform independent clinical research in cancer control. It is anticipated that physicians trained under these awards will improve cancer control through involvement in primary care practice, education, and research activities related to cancer control. The stipend for the award is \$25,000 for the first year and \$30,000 for the second.

Please note that candidates for these awards must be citizens or permanent residents of the United States. The application deadlines for each of these awards are as follows:

Clinical Oncology Career Development Award:
August 1, 1995

Cancer Control Career Development Award:
August 15, 1995
