

## **RADIATION ONCOLOGY/MOLECULAR BIOLOGY FACULTY POSITION**

The Division of Radiation Oncology of the Mayo Clinic at Rochester, Minnesota is seeking a BC/BE Radiation Oncologist with demonstrated clinical and basic science research skills. The successful candidate will devote time to clinical activities, teaching, and basic investigation (preferably in a research area that would complement our existing group of oncology scientists who are interested in the mechanisms of action of multiple chemotherapeutic agents, radiation, and the interaction of radiation and chemotherapy). The successful candidate will have the opportunity to participate in the clinical research activities of the North Central Cancer Treatment Group. This group and other Mayo Cancer Center Clinical activities could serve as a source to implement translational research endeavors that arise as a result of the investigator's basic investigations. The successful candidate's division of time will be dependent upon the candidate's previous experience and extramural funding. Please forward curriculum vitae to:
