## Scope

*Cancer Research* publishes impactful original studies, reviews, and opinion pieces of high significance to the broad cancer research community. *Cancer Research* seeks manuscripts that offer conceptual or technological advances leading to basic and translational insights into cancer biology. Manuscripts that focus on convergence science, the bridging of two or more distinct areas of cancer research, are of particular interest. The main scope of the journal is captured in its primary subsections: Cancer Biology, Cancer Immunology, Cancer Metabolism and Molecular Mechanisms, Therapeutic Development and Chemical Biology, Translational Cancer Biology, Cancer Landscapes, Computational Cancer Biology and Technology, and Convergence Science.

*Cancer Research* is abstracted and/or indexed in Current Contents/Clinical Medicine, MEDLINE, Science Citation Index, Scopus, and Web of Science.

## Submission of Manuscripts

Online submission of manuscripts is welcomed at <http://can.msubmit.net>. Before submitting a manuscript, please read the Instructions for Authors, which are available from the Journal's home page at <http://cancerres.aacrjournals.org>.
