

Figure S3. Decreased ASS1 expression correlates with CTNNB1 mutation in ENOC and EEC. **A**, ASS1 mRNA Z-score in 26 cases of ENOC cases described in publication by Wang et al (30). **B**, ASS1 histscore distribution in CTNNB1 mutated and wildtype endometrioid endometrial and endometrioid ovarian cancers. **C**, ASS1 mRNA raw counts in the TCGA endometrial cohort as related to CTNNB1 mutation status. P values were calculated using a Wilcoxin rank sum test.
