

Supplementary Table S5. Confirmed Best Overall Central Nervous System Response

	All patients with baseline CNS metastasis^a	
	N=10	
	n	%
Complete response (CR)	1	10
Partial response (PR)	0	0
Stable disease (SD) or non-CR/non-PD ^b	9	90
Progressive disease	0	0
Non-evaluable	0	0
Overall response rate (CR/PR)	1	10
Disease control rate (CR/PR/SD)	10	100

^aIncludes 3 patients with no prior radiotherapy (CR, 1 patient; stable disease [SD] or non-CR/non-PD, 2 patients) and 7 patients with prior radiotherapy.

^bIncludes 1 patient with measurable CNS lesions and SD, and 8 patients with non-measurable CNS lesions and non-CR/non-PD.

Note: CNS, central nervous system; N, number of patients in population; n, number of patients in specified category; PD, progressive disease.
