ABOUT THE COVER

The multispectral image of lung squamous cell carcinoma shows activation and regulatory T cells. Pancytokeratin (cyan), CD3 (red), CD8 (pink), granzyme B (orange), CD45RO (yellow), and FOXP3 (green) are shown. The image was generated using a Vectra/Polaris 3.0.3 scanner and InForm software 2.4.8 at 20X. For details, see the article by Parra and colleagues on page 1655 of this issue.
