

Supplementary Figure 3.

Supplementary Figure 3. DCLK1-L is not associated with ESCC tumor tissue or patient overall survival. **A.** DCLK1-L mRNA levels in para-cancerous and ESCC tissues (n=28 pairs). **B.** DCLK1-L mRNA levels in para-cancerous (n=28) and ESCC tissues (n=67). **C.** Kaplan-Meier overall survival curves of ESCC patients, in relation to relative mRNA expression levels of DCLK1-L.
