

## **SUPPLEMENTAL FIGURE LEGENDS**

### **Supplementary Fig. S1. PS-341 induces ER stress response in human NSCLC cells.**

The indicated lung cancer cell lines were treated with 0, 100, 200 nmol/L PS-341 for 24 h (A) or treated with 50 nmol/L PS-341 for the indicated time (B). Then the cells were subjected to Western Blot analysis.
