

Figure S6: Body weight of naïve mice is not affected by Debio 0617B. Naïve BL/6 mice (n=10 mice/group) were treated with vehicle or Debio 0617B (10 mg/kg) on a “5 days on 2 days off” regimen for 60 days and body weight was monitored. Data are shown as mean±s.e.m. Statistics: two-way ANOVA. Statistically not significant differences with $P>0.05$ are not indicated. Related to Figure 3.
